PRESENTING A WORKSHOP AT OASC

*Your workshop should be fun and interactive but you **MUST TEACH** something that students can take back to their school / group / life too!*

Essentials to a Successful Workshop:

- **Warm-up / Opening Activity**
 - Should be related to your topic. Don't do a game just to do a game.
 - No need for a name game (with the #'s it would take the whole time), just introduce yourself and/or other speakers
- **Teaching**
 - You should use a variety of methods for all learners (auditory, visual, hands-on)
 - Have an outline! It doesn't hurt to be overly prepared.
 - Make sure your technology works and have a backup in case it doesn't
 - Time yourself. The workshop should be 45 minutes total. If you finish early – have a plan!
 - **DO NOT RELEASE YOUR WORKSHOP EARLY . . .** It disrupts other groups!
- **Summary/Warp Up**
 - Have handouts available with your contact info. or email to Sara to post to the OASC website
 - Always ask for Questions

Technology

Seaside High School does have wifi and it is available without a password, anyone can log-on. It can be spotty at times and not extremely reliable. YouTube is blocked along with other popular social networking sites. Please plan in advance by downloading all presentation materials onto your laptop or tablet.

The following rooms have screens
2, 3, 6, 9, 10, 20, 21, 22, 23, 24, 25, 26, 27, 28, Library and Music

The following rooms **DO NOT** have screens
4, 7, 11, 13, 15, 17

OASC does **not** have the capabilities to supply projectors, screens, and or other technology equipment. Please be prepared to supply your own **COMPUTER, PROJECTOR, SPEAKERS, EXTENSION CORDS**, and other presentation materials. Workshop Presenters are **NOT ALLOWED** to use any equipment already in the classrooms of Seaside High School.
